

Millersville Community Vision Statement

Millersville is a historic and picturesque community, surrounded by the rural landscape of famed Lancaster County. A warm and welcoming neighborhood - Millersville's unique blending of interests and activities encourages a living-learning environment sensitive to individual needs, yet grounded in a concern for community.

Millersville will realize its full potential as a vibrant community and a thriving college town by:

- Continuing to create and enhance a friendly business climate that serves the daily shopping needs of the community, and the students and employees of Millersville University. Millersville will be a self-sufficient neighborhood center, providing quality customer service in a convenient, pedestrian and bicycle-friendly environment.
- Providing a variety of unique eateries, galleries, and boutiques where one can gather with friends and family, or find a quiet spot to watch the world go by and enjoy and experience true small town charm.
- Enhancing and coordinating a rich array of cultural, educational, spiritual, and recreational activities, Millersville will serve as a hub of activity for artistic and cultural happenings and sporting events accessible to all residents and visitors.

Millersville will attain this unified vision through collaborative and coordinated partnerships with various civic, religious, and volunteer organizations as well as private and public stakeholders, comprised of residents, merchants, the local government, Penn Manor School District, and Millersville University.

Millersville... lifelong living, learning, growing.

The Borough of Millersville...A Community of Neighbors.

*Adopted unanimously by the Millersville community representatives attending the 11-24-2008 public visioning session.
